❑ **YOU4BLUE** is an educational project for high school students implemented in 3 Mediterranean islands (**Sardinia**, **Crete**, and **Mallorca**) of 3 different EU countries: Italy, Greece and Spain.

❑ The project aims to promote a broad experience of sustainability for high school students, where marine resources are not only seen as a source of food but also recreation, spirituality, sports activities, culture, etc.

# Methodology

## The approach is based on 3 steps:

- **We all learn:** elearning course and practical experiences in the local contexts
- **Sharing knowledge:** students travelling to the other islands and participating in the ad hoc activities
- **Making a difference:** workshops, communication, and active citizenship activities /multiplier events/ country
- The approach is innovative because: a) It combines the use of different techniques to enhance learning and critical thinking. b) It is multidisciplinary and science-based. c) students will have the opportunity to share information, opinions and ideas with their peers in other countries, connecting their science learning with their life outside school.

# MANAGEMENT

COORDINATION   EVALUATION   COMMUNICATION

## Expected results

- Increase basic skills such as: communication, understanding, reading and writing skills in English language during interactions with scientists and researchers and interactions with students and people from other countries
- Development of key competences in science and in the application of the scientific method, as well as increased awareness of the environmental and social challenges that climate change brings
- Design, development and delivery of activity outputs such as videos, illustrated books and podcasts as results of the workshops
- Design, development and submission of proposals aiming to safeguard or improve a local area, to be submitted to local authorities as results of the civic engagement process
- Increased multiculturalism and appreciation of diversity, as well as reinforced EU identity.

**2<sup>nd</sup> Exchange in Crete**

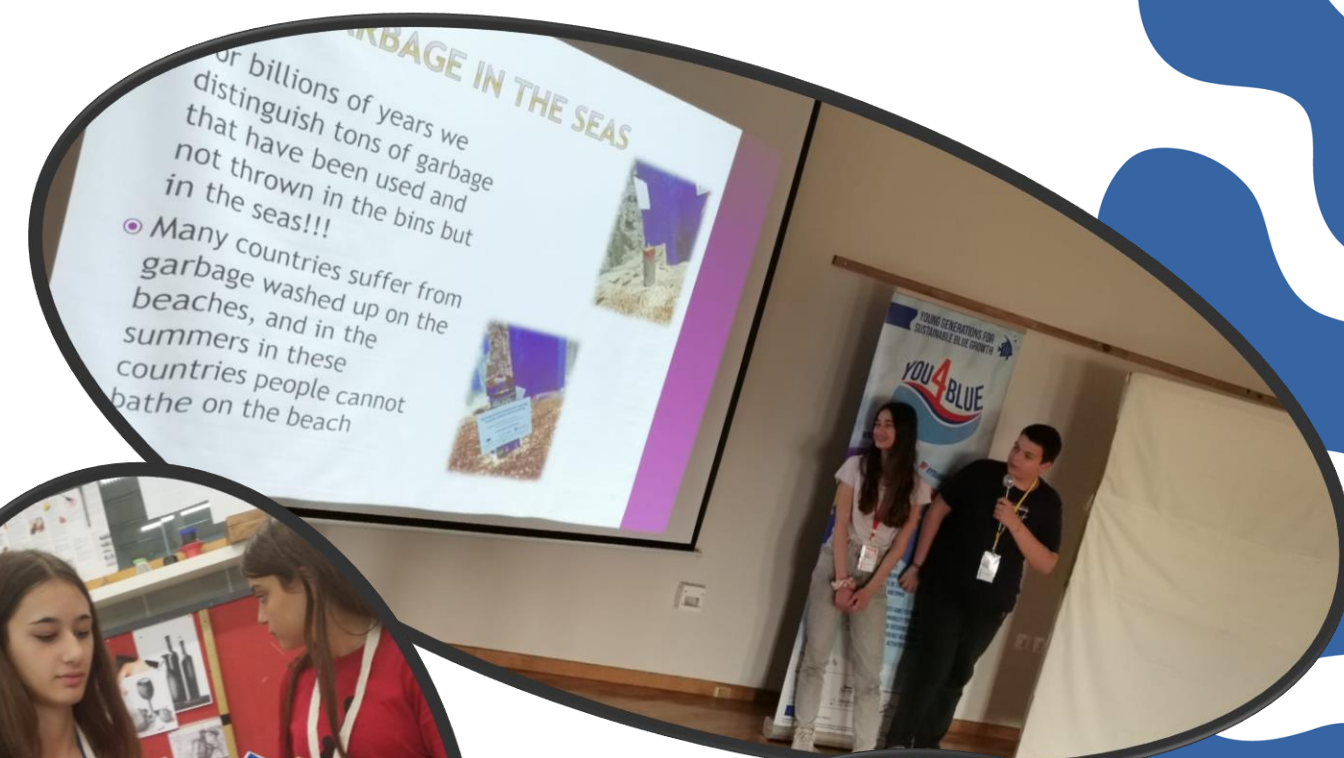

Day 1- Tuesday 16<sup>th</sup> of April 2024
